

GILLETT WILL SIGN REMOVAL BILL AUTO ACCIDENT; WOMAN IS HURT

SCHMITZ AND CONGRESS IS RUEF GAIN RESPITE

Plea of Mayor Will
Be Heard Next
Wednesday.

SAN FRANCISCO, March 4.—Al-though Judge Dunne last week made the positive order that Mayor Schmitz should be in court this morning to enter his plea to the indictment charging him with extortion, he was not present when court was called, and it was stated that he would not arrive in the city until Wednesday.

Attorney Hiram Johnson, of the district attorney's office, informed the court that both sides had agreed to a continuance to Wednesday, on which day the attorneys for Schmitz guaranteed that he would be present.

Upon this understanding Judge Dunne granted the request for a postponement.

The failure of Attorney Shortridge to have his list of citations prepared caused a postponement for one week in the cases of Abraham Ruef and Chief of Police Dinan, and in Judge Lawlor's court the trial of Supervisor Nicholas was postponed to March 18, on account of the absence of Attorney Dible, leading counsel for the defendant.

Japanese Case Is Once More Continued.

SAN FRANCISCO, March 4.—In the State Supreme Court this morning the application of Kokiichi Aoki for a writ of mandate directed against the principal of the Redding primary school and the members of the board of education, was continued for one month, and in the United States District Court similar action was taken in the case pending there.

CONGRESS IS ENDED IN SONG

Fifty-Ninth Session
Comes to a Close
at Noon.

WASHINGTON, March 4.—The fifty-ninth congress ended at noon today according to the declarations of the presiding officers, although the clocks marked 12:13 in the senate and 12:15 in the house.

The delay was occasioned by a slight error in the enrollment of the railway employees' hours of employment bill, and this was the last measure to reach the president.

No scenes out of the ordinary occurred. In the house the members sang and told stories, in the senate the proceedings were decorous.

Senator Gallinger withdrew the ship subsidy bill and therefore the filibuster against it was not continued to the end.

The conference report upon the bill regulating the hours of service of railway employees was agreed to.

Archie Roosevelt Is Very Much Improved

WASHINGTON, March 4.—Considerable improvement is shown today in the condition of Archie Roosevelt, the third son of the president, who has been ill since last Friday with an attack of diphtheria.

Dr. Rixey, surgeon-general of the navy, visited the sick boy today and upon leaving the White House said that the boy's condition was very satisfactory.

'LIBERTY' IS DEMAND OF A. RUEF

Habeas Corpus Writ
Is Asked; Case
in Court.

SAN FRANCISCO, March 4.—Abraham Ruef this morning made application to Judge Hebbard for a writ of habeas corpus, claiming that he is being illegally restrained from his liberty.

This action is construed as an effort on the part of Ruef to prevent his case going to trial before Judge Dunne tomorrow. Judge Dunne having stated last week that no further delays will be permitted.

The case is being argued before Judge Hebbard this afternoon.

Previous to making the application Ruef surrendered himself into the custody of the sheriff, and that official detailed a deputy to accompany Ruef to his offices and to remain by his side, so, as a matter of fact, he is not deprived of his liberty, although technically under arrest.

RONA, Algeria, March 4.—Eighty-five people have been buried by a landslide of about fifteen square miles, upon the mountainside near Sedrata.

Governor Swettenham of Jamaica Resigns

LONDON, March 4.—The resignation of Governor Swettenham of Jamaica has become an accomplished fact, and he will leave that island as soon as his affairs can be arranged.

NEW YORK, March 4.—In the course of his cross-examination of Dr. Evans today Mr. Jerome asked:

"Were Thaw's mental processes such that he knew he was attacking Stanford White upon the roof garden?"

"He had an insane knowledge, yes," replied Dr. Evans.

A dispatch from Pittsburg says Mrs. William Thaw will resume her social leadership in that city when the trial of her son is over. Her new house, adjoining Lyndhurst, the Thaw family mansion, is to be fitted up elaborately.

MRS. WILLIAM THAW, MOTHER OF HARRY THAW.

ACCIDENT ON TELEGRAPH AVENUE

Mrs. A. W. Terrill Is
Badly Hurt and
May Not Live.

In a serious collision this morning, about 10 o'clock, between an automobile driven by J. Hopper and a Telegraph avenue car, Mrs. A. W. Terrill, 65 years of age, was seriously injured and the chauffeur sustained painful injuries.

The automobile was wrecked and the car badly damaged in the collision.

Mrs. Terrill, who resides at 470 Merrimac street, was removed to the East Bay Sanatorium and given medical treatment.

She was attended by Dr. S. P. Adams, who states that the woman's injuries are very serious, but she has a chance of recovering.

The collision took place on Telegraph avenue at Thirty-sixth street. Hopper, who was driving the automobile in a northerly direction, endeavored to cross in front of a south bound Telegraph avenue car.

SEES DANGER.

The motorman saw the impending danger and endeavored to stop his car, but the slippery rails prevented him from doing so, and the auto and car crashed together. The auto was thrown to one side of the tracks by the impact and Mrs. Terrill, who was in the rear seat, was thrown to the street and sustained a broken leg and a fractured right wrist.

AID IS SUMMONED.

The passengers on the car, who had been frightened by the force of the collision, having been thrown from their seats, rushed to the injured woman's assistance and carried her into the sanatorium near by. Dr. Adams was called and attended her.

Hopper was also thrown to the street, striking on his hands and face, which were badly lacerated by contact with the street. His bruises were also treated at the sanatorium.

AUTO GOES WILD.

Witnesses of the accident state that Hopper was running at a great rate of speed and endeavored to cross in front of the car, which was also running at a good speed. The chauffeur, according to witnesses, became confused and lost control of his machine. The motorman of the car tried to prevent the accident, but his brakes did not hold. None of the passengers on the car were hurt in the collision. The front portion of the car itself was smashed in and had to be taken to the car barn for repairs. The auto was almost demolished in the collision.

Hopper has been an employee of Mrs. Terrill as a chauffeur for some time. The injured woman was unable to make a statement of the affair.

AUCTION SALE.

GOVERNOR GILLETT WILL SIGN THE CAPITAL BILL

SPECIAL TO THE TRIBUNE.

SACRAMENTO, MARCH 4.—GOVERNOR GILLETT WILL SIGN THE BILL PROVIDING FOR THE REMOVAL OF THE STATE CAPITAL FROM THIS CITY TO BERKELEY. HE HAS STATED THAT IN VIEW OF THE FACT THAT THE LEGISLATURE HAS BY A DECISIVE VOTE PASSED AFFIRMATIVELY ON THE SUBJECT, HE WILL DO NOTHING TO PREVENT THE QUESTION FROM BEING DECIDED BY THE PEOPLE OF THE STATE.

REFUSES TO RECONSIDER CAPITAL REMOVAL MEASURE

SACRAMENTO, March 4.—The Assembly today by a vote of 41 to 17 refused to reconsider the passage of the capital removal bill. Johnson said if reconsidered he would offer a substitute bill to let the people express their choice at the next election as to what city in the State they desired to change the seat of government to.

MRS. WILLIAM THAW WILL REVEAL SECRETS IN HER LIFE

NEW YORK, March 4.—A dramatic feature of the Thaw trial this week will occur with the appearance in the witness chair of Mrs. William Thaw, the prisoner's mother. It is said to be the program of the defense to add to the impression already made upon the jury of the steadfast devotion of the womankind of the prisoner in his hour of need. Mrs. Thaw's testimony, it is said, will be in this line of pre-natal influences which made of Harry Thaw the nervous, sleepless, headstrong child described by family physicians. Her testimony, from a sensational standpoint, will be second only to that which was given by the prisoner's wife.

HOLDUP MAN BRAINSTORM WISHES TO LOSES HIS NERVE AT TIME OF MURDER BE BURIED ALIVE

Stops an Automobile,
Then Becomes
Frightened.

NEW YORK, March 4.—District Attorney Jerome today concluded his long cross-examination of Dr. B. D. Evans, the alienist for the defense in the Thaw trial, who has declared that Harry K. Thaw was suffering from a brain storm at the time he shot and killed Stanford White, and began the cross-examination of Dr. Charles D. Wagner, also an alienist for the defense.

Mr. Jerome drew important admissions from Dr. Evans today to the effect that Thaw had knowledge of what he was doing on the night of the tragedy. The witness, however, characterized it as an insane knowledge. Dr. Evans explained that he believed that

Dr. Evans So Explains
Crime Done by
Harry Thaw.

An attempted holdup took place this morning about 3:30 o'clock on the San Leandro road, near Allen's roadhouse, a robber stopping H. M. Goddard, of 1837 Grove street, who was en route to this city in his automobile.

Goddard reported the attempted robbery to the local police, and furnished a description of the alleged holdup man.

Goddard was coming towards Oakland at a good rate of speed, when a man stepped out from Allen's roadhouse and, leveling an automatic revolver, commanded Goddard to stop, which the automobilist did.

The fellow then became nervous and told Goddard that he was just looking for an auto in which were five people, and told the autoist to "drive on."

This Woman Wants to
Be Incarcerated for
Her Sins.

In the city prison at the present time is a woman giving the name of Mrs. Munz, who declares that she wants to be incarcerated in order that she may live down her shortcomings, saying that she has not always led an exemplary life.

Mrs. Munz is being puzzled as to what disposition to make of her case. It is likely that lunacy charges will be filed against her.

Mrs. Munz tells a pathetic story of having been deserted by her husband, with whom she worked in a remote forest region of this State, endeavoring to establish a home. She then went to Alaska and worked at man's labor, coming to this State for rest.

GERMANY NOT READY FOR WAR

Will Not be Able to Fight on
High Seas for

LONDON, March 4.—A dispatch to the Express from Berlin states that German officers are not even thinking of fighting a naval war. The German navy is not a factor in a high German naval expert. He condemns many of the battleships as unworthy and obsolete, offers to accept of the new floating mines, the use of which in war would only mean the sacrifice of their crews, and says that the construction of the new battleships is proceeding so slowly that thirteen years will pass before Germany has an efficient navy.

CAPITAL REMOVAL BILL NOW IS UP TO GOVERNOR

Measure Has Inning in Assembly and as a Result Reconsideration Is Decisively Defeated-- O'Brien Is Forced to Make Motion.

SACRAMENTO, March 4.—The capital removal bill had another inning in the Assembly this morning and as a result reconsideration was decisively defeated and the bill now goes to the Governor.

After the vote last Saturday in favor of the removal to Berkeley, O'Brien of Sacramento, gave notice that he would move today for a reconsideration. About 11:30 o'clock this afternoon Walsh of Oakland, who led the fight in the House for the measure requested O'Brien to call up the latter's motion.

O'BRIEN HEARD.

O'Brien at first refused, saying he wanted the names to go over until the afternoon, but when Walsh notified him that he personally would imme-

diately call up the subject if O'Brien did not, the latter thought better of his refusal and put his motion for a reconsideration.

Johnson, of Sacramento, pleaded for a reconsideration so that he might be given an opportunity to oppose a number of amendments which he read.

TALK BY WALSH.

Walsh of Oakland, spoke strongly against a reconsideration, saying that as the session was rapidly coming to a close, it would be inadvisable to devote any further time to a measure which had been as thoroughly discussed as the proposed removal. The measure was refused consideration by the following vote:

Ayes—Birdsall, Chandler, Cogswell, Costar, Cullen, Davis, Drew, Fratessa,

Hammon, Hewitt, John, Johnson (of Sacramento), Lynch, McConnell, O'Brien, Percyval, Wilson, Mr. Speaker.

Nayes—Baxter, Beban, Berry, Bishop, Boyle, Butler, Campbell, Coghlin, Collier, Cornish, Cullen, Estadillo, Finney, Hartman, Held, Higgins, Jury, Kelly, Leeds, Lemon, Ludington, McLellan, McGuire, McKee, Otis, Pierce, Fyle, Root, Sackett, Snyder, Spaulding, Stetson, Strohl, Strobridge, Thompson (of Los Angeles), Transue, Walsh, Weske, Whitmore, Wilson, Wyatt.

HARRY THAW

DECLARED INSANE

(Continued From Page 2.)

Dr. Evans was unable to understand the exact relative positions of Thaw and White before and at the time of the shooting so Mr. Jerome pointed the scene out for him.

"We will imagine Mr. Delmas as the victim," he said, turning suddenly upon the California lawyer.

DELMAS DODGES.

Mr. Delmas dodged and the judge and the jury laughed. Mr. Jerome explained with many gestures and described Thaw's passage down the roof garden, his turning to the left and walking twenty-five feet to the table where White sat.

Then he turned deliberately and calmly and shot Stanford White dead. Does that fact show that he knew what he was doing?"

"No," replied Dr. Evans, "his calmness does not show he knew, but might indicate that perhaps he did."

"Would the fact that Thaw and his party each had a cocktail and several glasses of champagne shortly before the shooting have any influence upon the affair?"

"If it had, each one of the four would have shot some one."

WHAT DOCTOR THINKS.

"What is indicated to you, a scientific man, by Thaw's declaration to his wife that he had shot your life?" asked District Attorney Jerome.

"The fact that he had done something and had done it to save his life."

"What is conveyed by the fact that Thaw was sitting quietly talking to his wife until they started to leave the roof garden?"

"The fact that his outward appearance was calm had nothing to do with the matter—mental agitation does not necessarily mean muscular agitation."

"Does the fact that Thaw told you that he had wanted to kill White but had tried to have him punished by law show that he realized what the law was and that some acts are prohibited by law?"

"At that time, yes," replied Dr. Evans.

YOU INSANE PERSONS.

"You believe that Thaw had sufficient intelligence to know of that?"

"I cannot accept intelligence in the sense you use it," said the witness, "as applying in cases of unsound mind. A man may be both sane and intelligent and still be insane."

"Are insane persons deterred by fear or punishment?"

"A great many are."

"That is all," said Mr. Jerome and the long cross-examination of Dr. Evans was concluded.

DR. WAGNER RECALLED.

Dr. Delmas was about to begin re-direct examination of Dr. Evans when he asked the witness if he had certain papers for the City of Oakland. Dr. Evans said he had not. It was agreed that he should be excused temporarily and Dr. Wagner, superintendent of the State Insane Hospital at Stockton, was recalled for cross-examination.

"Dr. Wagner," said Jerome, "will you kindly describe in as few words as possible the kinds of insanity of the mind this defendant was suffering from?"

"It was one of the insanities which developed during the period of adolescence. I would say that it had not developed sufficiently to permit of a definite characterization. There are symptoms leading to various forms of insanity."

Mr. Jerome asked the doctor about his visits to Thaw in the Tombs and said as far as he remembered Dr. Evans had left no incident of those visits unrecalled. Mr. Jerome took up the subject of medical writers and Dr. Wagner said he did not know of one which he would take as absolute authority.

"Medicine is a progressive science," he said, "and the reason why books are written this year is because last year's books are out of date."

"What is your opinion of the writings of Dr. Allan McLane Hamilton?"

"I would rather not characterize them," Mr. Jerome asked the witness.

"What kind of insanity is it this defendant suffering from?"

"Medicine is a progressive science," he said, "and the reason why books are written this year is because last year's books are out of date."

"What is your opinion of the writings of Dr. Allan McLane Hamilton?"

"I would rather not characterize them," Mr. Jerome asked the witness.

ANTI-RACE TRACK BILL IS PRACTICALLY DEAD

State Senate Refuses to Recall Measure From the Committee on Public Morals.

SACRAMENTO, March 4.—The Senate practically killed Eshleman's anti-race-track measure by refusing to recall it from the committee on public morals and by defeating Miller's "Texas car law" bill after a debate which took up almost the entire morning session.

The Senate also refused to reconsider the passage of the bill inasmuch as it is a felony for newspapers to criticize judges and comment upon criminal trials while in progress.

MOVED BY BELL.

Senator Bell attempted to force the anti-race-track bill on to the Senate floor by introducing a resolution recalling it from committee. The resolution was defeated by a vote of 11 yeas to 22 nays, which practically means that the measure is dead.

Bell stated Chairman Irish of the committee of public morals had promised to report the bill but had failed to do so. He then saw the ranking senator of the committee (Leavitt) who said there was no use in calling a meeting of the committee and told Bell to go ahead and "put in your resolution."

POINT OF ORDER.

Wolfe made a point of order that Bell was talking on the merits of the bill instead of on the policy of withdrawing from committee. There was a disposition shown to shut off Bell but the latter persisted and read a resolution adopted by the Los Angeles Republican County Convention instructing its senators to work for the passage of the bill.

Leavitt contented himself with remarks of an angry character. Everybody understands that Bell is opposed to the withdrawal of the bill.

STETSON'S RESOLUTION FIXING DATE TO BE VOTED ON TOMORROW.

SACRAMENTO, March 4.—The special appropriations made by the legislature aside from the \$8,234,600 carried by the general appropriation bill is \$3,945,000, a grand total of \$12,179,600.

Stetson's resolution fixing the day of adjournment for the legislature has been made a special order for tomorrow. The ways and means committee recommends adjournment sine die for midnight Friday. Stetson wants to amend it by making it Saturday night. Others want the session to continue until next Tuesday or Wednesday.

FRENCH MOB IS CHARGED BY TROOPS.

MONTEPELIER, France, March 3.—Antoine Leroy Beaulieu, director of the Institute of France, has been re-elected to the Chamber of Deputies. Violent disturbances followed the announcement and the troops were charged with the mob several times. Many persons were injured and numerous arrests were made.

WIND AND RAIN.

SAN DIEGO, March 4.—Rain began falling early this morning and continued in showers the entire forenoon. The wind, which is from the south and making a more vicious surf at Coronado than has been seen there since the time the ocean ate its way into the land along the boulevard.

MARIETTA, O., March 4.—A lynching seemed imminent here last night when a large crowd of people surrounded the jail where Walter W. Savage of Syracuse, N. Y., and his alleged accomplice, Andy Carraway, were imprisoned.

Savage is an advertising sketch artist and has been here about a week. He has made a specialty of getting young girls to pose for him and his pictures are in high demand.

About 1 o'clock this afternoon he had six young girls between the ages of 12 and 14 years, in his room and it is said that he had taken them there and administered some kind of drug. The police, upon investigation, found all six of the girls unconscious lying on the floor. The girls and the two men, having been found in the room, were taken to the city jail. The men were later afterwards taken to the county jail which is strongly guarded by police and deputy sheriffs.

defendant has or had."

In reply Dr. Wagner created something of a stir by using the present tense.

"My opinion," he said, "is that this man has symptoms allied to depressive form of insanity, and others allied to dementia praecox."

Dr. Wagner repeated the story that Thaw told him in the Tombs that he had wanted to kill White, but that Providence had stepped in.

"You are using exactly the same words that Thaw used," said Mr. Jerome.

"How is it that you remember them so well after seven months? Did you make any notes?"

Dr. Wagner said he had not because Thaw had objected so strenuously. Thereafter they had no complete record of the case, he spoke from memory.

The luncheon recess was taken at this point.

OBJECT TO THE RUSSIAN WAYS

Americans Make Complaint
About the Cruelty of Czar's
Soldiers.

WASHINGTON, March 4.—In connection with the establishment of immigration stations at Galveston, New Orleans and Charleston, S. C., Mr. Bennett of New York presented in the House today a petition signed by distinguished list of American citizens, calling upon Congress to protect against the perverted use of government functions of which the Russian people are the victims.

The protest recites a list of atrocities asserted to be practiced by the Russian government in its "prolonged warfare against its own people."

The arrangement of the Russian government followed:

1—Thousands of men and women are dragged from their homes solely at the discretion or pleasure of local military or police authorities, placed in remote settlements of semi-savages close to and within the polar circle, where the most loathsome diseases are chronically epidemic.

2—Hospitals are deliberately fired upon by regular troops.

3—The Red cross is not respected and the wounded are frequently slaughtered or thrown into the sea or buried alive with the dead.

4—Women, children, aged and decrepit men are maimed and killed by the Russian soldiers and trampled under hoofs of horses.

5—Girls and women inhabitants of districts under military protection are repeatedly given over to violation by officers as well as ordinary soldiers.

6—Tortures are applied to prisoners to elicit information.

Among the names attached to the petition are those of Justice Samuel Greenbaum, R. Fulton Cutting, Samuel Leisner, Jacob Schiff, Bishop Henry C. Potter, Edwin T. Gould, Dr. Lyman Abbott, New York; Julia Ward Howe, Boston; Bishop Whitaker, Philadelphia.

The Doctor Wrote It

A Kansas City capitalist had a member of his family sinking with Bright's Disease. He wanted to put him on Fultons Rrenal Compound. The physician declared it and advised that a telegram be sent us that would call for a telegraphic reply, no or yes, to the question "Do you claim your Compound cures chronic Interstitial Nephritis?" This is about the most fatal of the various forms of Bright's Disease. The Doctor thought we would dodge the question.

But did we? This was the answer: "Yes. Scores of cases of chronic Interstitial Nephritis have recovered."

No evasion there. The patient was put on the treatment. Recovery started in twenty days, and the grateful father not only wrote us about four months later of the victory won by the Compound, but closed thus: "I could give you the name of another recovery here, a Kansas City business man, who was so badly off with Bright's Disease they took him to Colorado Springs, where he heard of your treatment, and after two months on it came back to business."

Well, Hardly

Promoters of patent medicines do not give publicity to Dr. Loomis' statement at Bellevue Hospital that nine-tenths of people over 40 have Bright's Disease, or to the Government figures that show that nine-tenths of all deaths from kidney trouble are really due to Bright's Disease, for the simple reason that none of the "patent" cures chronic Bright's Disease and they must therefore fail. Fultons Rrenal Compound is the only specific in the known world for chronic Bright's Disease and its folk-lore name "kidney trouble."

It is probable that nine-tenths of all kidney trouble show albumen. It is certain that nine-tenths of all deaths from kidney disease show Bright's Disease. The census for 1906 of the figures, viz., 55,000 out of 63,000. This shows on earth can any one have the knowledge to recommend or give anything but Fultons Rrenal Compound in kidney trouble?

For Bright's and kidney disease ask for Fultons Rrenal Compound, \$1.00 at drug stores. For Diabetes ask for Fultons Diabetes Compound, price \$1.50. Send for the pamphlet to Jno. J. Fulton Co., 5210 San Pablo ave., Oakland.

CHARTER AMENDMENTS TO GO TO SACRAMENTO

An Effort Will Be Made to Have Them Ratified by the Legislature at Once.

The amendments to the city charter, which were passed by a decisive vote last Friday, will be sent to Sacramento tomorrow with the object of having them ratified by the Legislature.

They cannot become part of the organic laws of this city until they are ratified by the State lawmakers.

It is stated that after they are ratified they will go into effect at once, except the amendment, however, which there is a legal point.

The amendments as they will go to Sacramento tomorrow are as follows:

INCINERATING PLANT.

Section 51.—To establish, acquire, construct, purchase, complete, conduct, and manage, subject to the approval of the city council, a city incinerating plant, machinery, and property, both real and personal, for collection, removal and disposal by incineration or otherwise, for collection, or removal, or disposition as aforesaid, either within or without the city of Oakland, of garbage and waste matters created, produced, or accumulated at any place in the city of Oakland, and provide for maintenance thereof.

This amendment to section 51 of the charter of the city of Oakland, county of Alameda, State of California.

OPENING STREETS.

That section 52 of the said charter be amended to read as follows:

Section 52.—The Act of the Legislature of the State of California, entitled "An Act to provide for laying out, opening, extending, widening, straightening or closing up in whole or in part any street, square, lane, alley, court or place within

municipalities and to condemn and acquire any and all land and property necessary or convenient for that purpose," approved March 11, 1899, and such other acts of the Legislature as may be there after enacted, amendatory thereof, or supplemental thereto, are hereby adopted and declared to be a part of this charter.

This amendment last aforesaid herein proposed, shall be and shall be known and designated as "Amendment Number (2) to the charter of the City of Oakland, State of California."

Disasters to Ocean Shipping.

This is the season of the year, of course, when the reports of shipwrecks in the waters of the northern hemisphere may be expected. Winter is the season of storms and fogs. The latter are particularly perilous in the narrow waterways usually congested by the concentration of the traffic of the great ocean lanes of commerce. The report of a long list of casualties to shipping in the English channel—founderings through collisions and strandings on the Goodwin Sands—is, therefore, not entirely unexpected. The list of shipwrecks in that international waterway appears, however, to be exceptionally formidable, owing to the prevalence of an unusually long season of dense fog, which has obscured the beacons along both shores from the sight of the mariners navigating it. Four or five steamships are reported grounded on the Goodwin Sands, a shoal more dreaded by sailors than any other in existence. There was a time when the stranding of a vessel on these Sands was regarded as a certainty of her total loss. One of the traditions of the sea formerly was that no ship which stranded on Goodwin Sands ever floated again, but was quickly swallowed up in the treacherous quicksands of this shoal, which lies right in the path of the commerce passing to and fro through the English Channel in and out of the North Sea and the Baltic.

But to the Pacific Coast the maritime disasters occurring in the Pacific Ocean and affecting vessels engaged in our own commerce are of greater interest and concern than any of the happenings in the English Channel and on the shores of the British isles. The news of the wreck of the Great Northern steamship Dakota in Japanese waters is exceedingly unwelcome. She was one of the biggest commercial vessels ever built in the United States and was one of the fleet which has in recent years been developed to meet the wants of our growing Oriental commerce. It is a noteworthy as well as a painful fact that during the past twelve months three of the largest of the bigger steamships employed in the transpacific trade should have grounded. The Manchuria and Mongolia, belonging to the Pacific Mail, grounded, respectively, on Midway Island and in Hawaiian waters. Both of these vessels were brought into port and are undergoing repairs. The fate of the Dakota, whose home port is Seattle, is uncertain. The disaster which has overtaken the Dakota will probably raise the question as to whether Japanese waters are properly charted to secure the safety of the great draft of modern leviathans, for she seems to have struck a rock in well beacons waters during the daytime and clear weather.

The local wrecks on Humboldt bar, which have been recorded during the past few days, indicates that the improvement of the entrance to Humboldt bay is still incomplete and that the growth of commerce in that port demands that greater security be provided for shipping trading there.

The United States Senate's prompt confirmation of Paul Schafer as postmaster of Oakland gives general satisfaction. Mr. Schafer has fairly earned the promotion through the splendid service he has given the department and the public during his long tenure as assistant postmaster.

The decision which has been suddenly reached by United States Senator Spooner of Wisconsin to surrender his seat is a sensational political event which will cause general surprise. Spooner has been one of the ablest and most conspicuous members in the Senate since he entered that body sixteen years ago when he abandoned the legal profession to devote himself wholly to his duties as a Senator. As a reason for resigning, Spooner says he wants to return to the profession he has neglected so long in order to repair his fortunes, which have not been improved by his devotion to politics. Spooner will be missed in the Senate.

Political Upheaval in London.

The British metropolis seems to have experienced a political upheaval in the election of Saturday when a new county council was chosen. The outgoing body is composed of 83 Progressives, 34 municipal reformers and independents. The latest returns of Saturday's election show that the so-called municipal reformers have gained thirty-four seats and the Progressive and labor parties only one each. The municipal reformers are allied with the Conservative-Unionists and their probable return to metropolitan control, from which they were ousted twenty years ago by the Progressives and Liberals, indicates a probable revival of the abuses which marked their previous career when in power. During the twenty years the county council has been controlled by the Progressives and Liberals great reforms have taken place in the management of metropolitan affairs. Their long tenure in office has, however, created some conditions which the electors refused to approve, as the Progressive and Liberal candidates sought re-election solely on their past record in office.

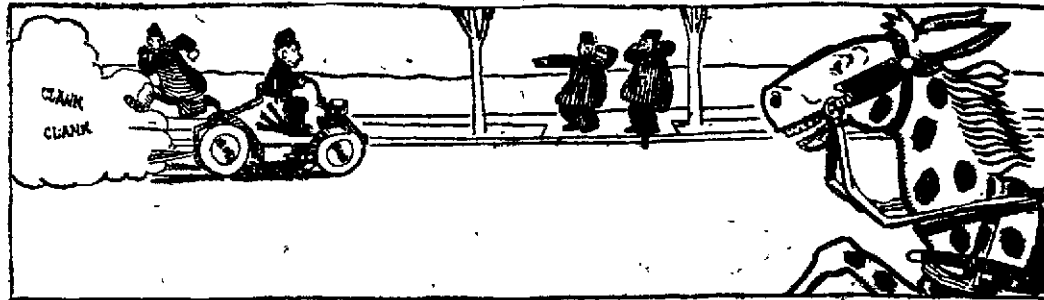

In some quarters the result of the municipal election is regarded as a death blow to municipal ownership of public utilities, in the metropolis at least. It is certainly, in some sense or other, a rebuke to the Laborites and Socialists, for it has induced John Burns, president of the local government board in Campbell-Bannerman's cabinet, and the leader of the London dock men, whom he represents in Parliament, to issue a manifesto denouncing the campaign of the municipal reformers as the most "vulgar and disgraceful" that has ever discredited British public life, and the election of their candidates as a surrender of London to greedy monopolists and speculators. The political upheaval which has taken place seems to have been altogether unexpected. Whether London will profit by it or not, time and experience only will tell.

San Francisco had its first wholesale street cleaning since the big fire, yesterday, when thousands of its citizens of all classes turned out with brooms, hoes and shovels to remove the dirt from some of the principal thoroughfares. So far as the work went it was done well, and the cleaning up will doubtless make the residents and property-owners of the stricken city feel more comfortable after it. It is to be hoped that the work of actual rehabilitation.

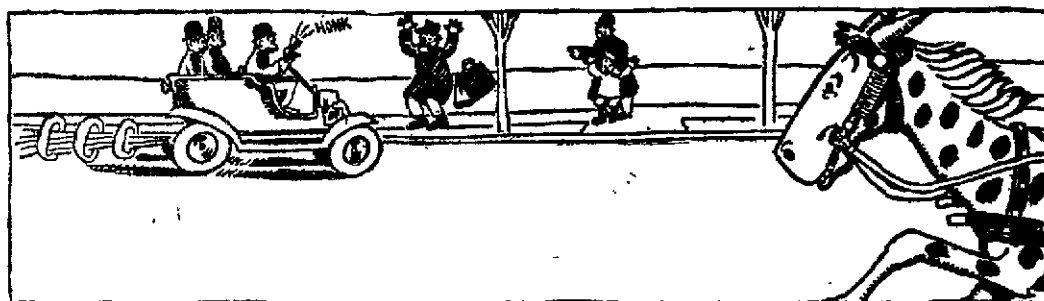

His "Innards" Rebelled.

Speaking of the way the language is manipulated, a dyspeptic Atchison man went into a restaurant the other day, the Globe says, and ordered fried catfish. "Fried cat," bawled the waiter to the cook. Instantly the weak stomach rebelled. "Cancel that order," the customer said, "and give me an order of country sausage." "Siderack the cat and make it a bulldog," yelled the waiter, and he is wondering yet why the man grabbed his hat and left.

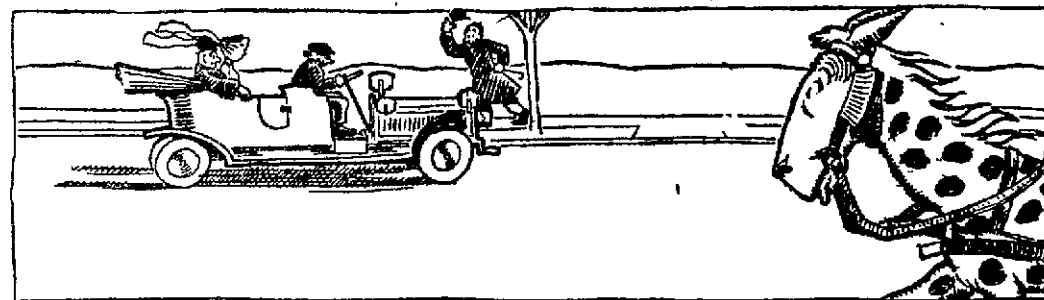

THE HORSE AND THE AUTOMOBILE EXHIBITION.

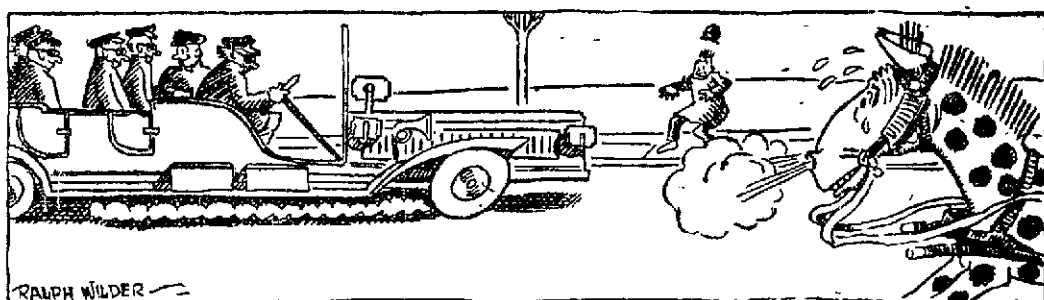

THE HORSE—1902—"HA, HA! THERE GOES THE THING THAT'S GOING TO PUT ME OUT OF BUSINESS."

1904—"CHEER UP! YOU'RE GROWING SOME!"

1906—"HUH! IT IS GROWING."

1907—"REISET!"

Normal Growth of Oakland.

The hum and bustle in Oakland, due to a large extent to the bad luck of San Francisco last April, is abating a trifle. So minute is the lull it takes a practiced eye to note it. There certainly is a slight waning, and it is occasioned by the call of San Francisco. There need be no fear that Oakland is destined to return to its old-time lethargy, for its loss from the drafts on our population made by the Pacific Coast metropolis will be more than balanced by accession of new residents from other parts of the State and from the world at large. Oakland is a magnet city, and its power of attraction will positively cause it to eclipse any other town on the Pacific slope save San Francisco. Our city is to have great hotels and extra theaters. These lures will soon be facts accomplished. With excellent water, a model sewer system and elegant streets—attributes now possessed—Oakland, not to speak of other advantages, is prepared to invite high-class immigration from any part of this planet. An extension of the lighting plant of our business district is, however, a matter that must be settled without delay. The central commercial section must be ablaze with electric light on a far more dazzling scale.

"So?" grunted the other. "Quite a crowd o' ye goin', ain't thar?"

POINTED PARAGRAPHS

The popular Waldorf salad of apples, celery and lettuce can be made more attractive if a few red cherries are sprinkled over the top.

Soda used in the laundry should be dissolved before the garments to be washed are placed in the tub. Yellow stains, which soon form holes, are caused by soda touching wet linen.

Saucepans should be kept clean on the outside as well as inside. The prevent the smoke from sticking rub the outside of a new saucepan with fat before placing it on the stove. Wash with hot water and soda.

If possible leave a wet umbrella open to dry so that the silk will not rot or crease. If it cannot be left open turn it upside down, so that the moisture will not collect at the ferrule end and so rot the silk while evaporating.

The "point of order" which is to be used to defeat the five-million dollar postal grab in Congress is likely to become as great a nuisance as the cry of "unconstitutional" and "confiscatory," or the shelter afforded by the "fourteenth amendment."

Soot on the carpet need not cause a hideous stain. Do not attempt to remove it until you have covered it over with an equal amount of salt. Ordinary kitchen salt, but in powder, not in lumps. The soot and salt together may be easily swept up, without the least damage to the carpet.

Berlin cable to New York Herald: The Berlin cafes are drawing the color of lime. A few nights ago a negro was hustled out of one of the leading cafes for making eyes at a barmaid, following which a notice was posted at the door, reading: "Negroes not admitted." Next morning two other well-known cafes followed this example, and it is expected that the boycott will extend to the whole of Berlin.

"She was always cheerful, and she was always able to communicate her cheerfulness to others. During the nine years that we passed in poverty and debt she was always able to reason me out of my despair and find a bright side to the clouds and make me see it. In all that time I never knew her to utter a word of regret concerning our altered circumstances, nor did I ever know her children to do the like. For she had taught them, and they drew their fortitude from her. The love which she bestowed upon those whom she loved took the form of worship and lip that form it was returned—returned by relatives, friends and the servants of her household." Thus writes Mark Twain in his autobiography. His wife, Mrs. Clemens, never dreamed that her unselfish devotion to her gifted husband would bring her world-wide fame. Today her eulogy is being read by millions of readers in every quarter of the globe. She is justly honored.

Another Education Problem. At a teachers' conference in Berlin one of the school principals rose to propose the toast, "Long live the teachers."

"On what?" inquired a meager, pallid young assistant instructor in a hollow voice.—London Tribune.

No Use Advertising for It. Griggs—Dropped into the courthouse this morning and lost my overcoat there, confound the luck. Briggs—That's nothing. Last week I lost a whole suit there.—Boston Transcript.

MONEY IN CHINA

The money chiefly used at the foreign ports of China is the Mexican silver dollar. There is an immense amount of these coins in circulation. The notes issued by foreign banks in China, such as the International Banking Corporation, the Hongkong and Shanghai Bank, etc., for \$5, \$10, etc., all read "payable in local currency," that is, Mexican dollars. It seems strange that China should use money from Mexico when she has money of her own, but the value of the money in China varies so that the foreigners imported money for their own use of which they know the value, and so this became the currency of the ports.

Autocratically governed China is in some respects the most democratic country in the world and there is no centralization, no unity, and no uniformity. Each province, even each little town is a law unto itself and uses its own language, weights, measures, etc. As regards money the confusion is the same and each province has its currency and the money of one province has an entirely different value from that of another.

Each province of China now issues silver dollars, but they are not interchangeable, and hence only local. In fact, each province charges a discount on money from any other province, which is the reason the interchangeable Mexican dollar is so popular. The Mexican dollar and the other coins are widely counterfeited, so that all money received in China has to be examined carefully. Compradors and native merchants frequently put their own chop or stamp on these dollars as a guarantee before passing them on.

THE JUDGE EMBARRASSED.

Miss Hilda Smith of Denver recently served on a jury, and the Judge in addressing the jury began: "Gentlemen of the jury." Then he belthought himself and added "and lady of the jury." The lady served on divorce cases and voted to give divorces to two men applying for them, which shows how unprejudiced a woman can be.

CUTTING "BABY TEETH" AT 93. Over 93 years of age, Mrs. William Thomas of Tamaqua, Pa., is cutting her teeth. She says she experiences the same pain as an infant getting its first molars.

NATURE SUPPLIES SOAP.

Near Ashcroft, in British Columbia, are a number of small lakes, whose shores and bottoms are covered with a crust containing borax and soda in such quantities and proportions that when cut out it serves as a washing compound. The crust is cut into blocks and handled in the same manner as soap, and it is estimated that one of the lakes contains 20,000 tons of this material.

WALKS 1600 MILES ON WATER.

Captain Charles W. Oldrieve recently won the world's championship and \$5000 by walking the water from Cincinnati to New Orleans, a distance of 1600 miles, in 33 days, 23 hours and 15 minutes. He walked only during the daylight hours, using cedar shoes 4 feet and 5 inches long, 5 inches broad and 7 inches deep. His wife rowed beside him all the way. In a gasoline boat preceding Oldrieve were Captain J. W. Weatherington of Dallas, Tex., who backed the water-walker, and Arthur Jones, representing Edward Williams of Boston, who laid the wager.

WORLD'S BIGGEST BABY.

The biggest baby in the world has just been discovered in Kallstadt, Germany. He is the 2-year-old son of August Oppé, the chief of the gendarmes in that city, and weighs exactly 166 pounds. He is already 3 feet in height and his chest measurement is 34 inches. His father is a normal man and his mother is rather delicate. However, both his parents promise to head a generation of giants, as they have a second son only a year old who is growing to the same proportions of his elder brother.

THE YOUNGEST GRAY HEAD.

To have all his hair turn gray at the early age of 6 years, with no apparent cause, has been the lot of the young son of John Ertwine of Eleventh street, Bloomsburg, Pa. About a year ago the parents noticed that the boy's hair, which was dark, was beginning to turn gray in several places. At first they pulled out the gray hairs; but these increased so rapidly that at present it would be necessary to keep the boy's head shaved to keep the gray hair from showing.

EDISON THE SAGE

Thomas A. Edison has lately reached his 64th year. Instead of taking advantage of the so-called "Deerian" theory that a man's life ends at three-score years, the famous inventor announced that he was going to start afresh in a new field of scientific endeavor. For the last forty years Mr. Edison has devoted his energies almost wholly to the perfection of inventions which he believed "could be made to pay," and which in some instances have met with such success that they have revolutionized many phases of modern life, have brought the inventor fame and riches and have added so greatly to the wealth of the whole world that at the present time there are 250,000 persons in various countries employed in industries which he has founded.

Although the problem of human life has baffled all who have tried to approach it, nevertheless, the man who has succeeded in so many other places where his fellows have failed is now said to be contemplating this most stupendous of all intellectual undertakings. Indeed, he has already studied into the subject so far as to say that man is an "aggregation of nervous influences," and that behind man there is a power which some call "God" and others a "Supreme Intelligence," and whose existence he hopes to prove as conclusively as by a mathematical demonstration.

That Thomas Alva Edison means to spend the afternoon of his life in work is no surprise to those familiar with his earlier life. His years ever since he was a newsboy have been crowded with labor. For the last forty years he has worked on an average of sixteen hours a day, so that, judged by the eight-hour union day, he has already lived a century. Here are a few of his rules of living:

Eat lightly. It is better to eat too little than too much.

If work is congenial it is more restful than idling.

Too much sleep is stupefying. Four hours of sound sleep is better than eight hours of dreaming, restless slumber.

Alcohol, scatters thought. Tobacco often stimulates it.

AN ANCIENT INDIAN.

Chief Left Hand, a famous warrior of the Arapahoes, is dying of old age in his tepee on the Canadian river in Oklahoma. He and Black Kettle, chief of the Cheyennes, commanded the last Indian uprising in that territory. That was in 1868. The redskins were surprised by troops under General Custer and nearly all of the former were killed. Left Hand, now over 80 years old, is going blind and is almost helpless. He lives by himself, and the old Indian custom of jettisoning the "old folks" crawl off by themselves and die in being carried out to some extent in his case.

TELEPHONE JOKE FROM PARIS.

Here in Oakland we have sometimes to wait a little while before "Central" will give us the party we want. Over in Paris the telephone service is a fertile subject for jokes. This bit of humor is from Le Figaro, that noted French daily:

Au telephone—Au bout d'un quart d'heure, un abonné finit par avoir une réponse de la demoiselle. Réponse négative, bien, entendu. (Translation) At the telephone. At the end of a quarter of an hour a subscriber finishes by to have a response from the demoiselle. Response negative, well understood. "Line is busy!"

GOLD TIP TEA A RARITY.

"I sold last week," said a London tea expert, "a pound of tea for £8 10s, or \$42.50 American money—was worth the price, too. It was gold tip. On every tea bush grows four or five minute gold tips. These are superior to ordinary tea leaves as champagne is superior to beer. They are laid after picking, on strips of flannel, so that they may be neither broken nor soiled. To gather a pound of gold tips will take a man a week or more, and a 3000 or 4000-acre plantation will yield only a few pounds. The Japanese and Chinese nobility usually have a little gold tip tea on hand for special occasions. A pound of it was sent to King Edward by the Japanese emperor last year. It is seldom, though, that any of this delicious tea gets on the market. It looks like bird's eye tobacco, and in flavor and in strength it is many times superior to ordinary tea.

FULL CONFIDENCE.

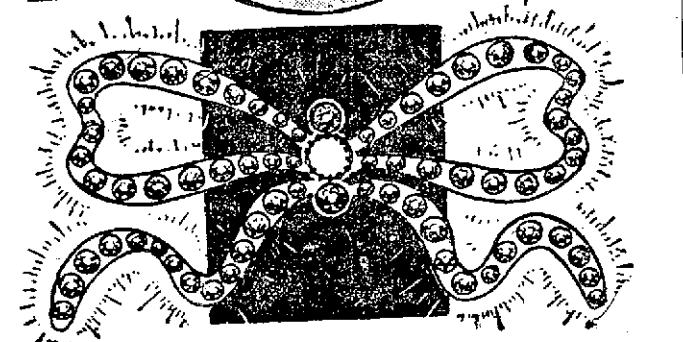

She—You haven't any confidence in either candidate?

He—On the contrary, I have confidence in both. I believe all the things they say about each other are absolutely true.

HEART :: TRIBUNE'S PAGE FOR WOMEN :: HOME

This picture is from a recent photograph of Mrs. Oscar Livingston, a New York society woman, who was robbed of \$20,000 worth of jewels by her maid, who confessed that she took them to give to her sweetheart. Below is a picture of a costly lover's knot pin which was one of the jewels stolen.

EX-SENATOR'S DAUGHTER TO BECOME BRIDE SOON

The Girl Who Wrote "Ruth" Letters Said to Be Engaged to Eugene Hall.

CHICAGO, March 4.—Miss Ruth Mason, daughter of ex-Senator William E. Mason, is to be married, according to the latest information, from her home, 1477 Washington boulevard.

This information has it that the bridegroom-to-be is Eugene Hall, of Glen Ellyn, and it is understood that a family gathering is to be held Thursday night for the purpose of making a formal announcement of the engagement.

Though Miss Mason is one of the most popular young women in her set, she came into prominence about a year ago, when it was reported from New York that a love letter, alleged to have been written by her and signed "Ruth," had been found in the effects of J. W. Martine, a haberdasher's clerk. Martine formerly had been a contortionist in the Nickel Plate circus, and had been arrested on a charge of stealing \$15,000 from his employers.

REFUSES TO PAY HIS SPOUSE'S LARGE BILLS

Her Costly Gowns and Dainty Millinery Arouses the Ire of Pittsburger.

PITTSBURGH, March 4.—An affidavit of defense was filed by R. M. Gullie, the theatrical manager, to the suits of Mrs. S. A. Meyers and Jennie M. Shoo, dressmakers, who claimed \$3420 for clothing and hats furnished Mrs. Gullie.

Mrs. Meyers claimed \$2280 for five

gowns, a tea gown and three hats, while Miss Shoo asked \$1190 for five gowns and three wraps.

In his answer Gullie states the bills show that the wearing apparel was purchased on October 6, 1930, and, although he has always dressed his wife as befits her station, she made these purchases without his consent.

WHEN TO WED.

Marry when the year is new,
Always loving, kind and true;
When February birds do mate,
You may wed, nor dread your fate;
If you wed when March winds blow,
Joy and sorrow both you'll know.
Marry in April when you can,
Joy for maiden and for man.
Marry in the month of May,
You will surely rue the day.
Marry when June roses blow,
Over land and sea you'll go.
They who in July do wed
Must labor always for their bread.
Whoever wed in August be
Many changes are sure to see.
Marry in September's shine
Your living will be rich and fine.
If in October you do marry,
Love will come, but riches tarry.
If you wed in bleak November,
Only joy will come, remember.
When December's snows fall fast,
Marry and true love will last.

SUDDEN DEATH.

The death of Mrs. Stanley Moore has cast a gloom over society, and the events of the week will be all of an informal nature out of respect to the sudden passing of one of Oakland's most popular society girls. Every sympathy is extended to the family of the bride and to the bereaved young husband.

ENJOYABLE AFFAIR.

Mr. and Mrs. William Alpen entertained recently for Miss Laura Sablatschan and Harry Hermann at the Bay Shore clubhouse in Alameda. The hall was decorated for the occasion, and thirty couples followed P. Left, who acted as toastmaster of the evening, to the banquet table at the stroke of 12, where all took occasion to toast the young couple, after which the floor was cleared for dancing. Those present were Miss Laura Sablatschan, Mrs. Alpen, Mrs. Helwig, Miss B. Barthold, Miss N. Reilly, Miss L. Sablatschan, Miss T. Stolzendorf, Miss L. Roemer, Miss F. Hedrick, Miss G. The following have recently fulfilled membership: Mr. and Mrs. Gustav Van Derpueboom and Mr. and Mrs. William Moller.

The section in Child Study will meet second and fourth Tuesdays, at 10:30 a. m.

CARD CLUB.

The Jolly Twelve Card Club was entertained by Mrs. McFadyen at her cozy home on Otis street Friday afternoon. Mrs. F. H. Dawson captured first prize; the second was won by Mrs. Edwin Schwerin; Mrs. L. Winkelman took third and the consolation served. The club has added another table to its number and will be entertained at the home of Mrs. C. Finney.

OAKLAND CLUB.

The Oakland Club calendar for March contains an interesting event, namely, the luncheon on March 17th. As heretofore, Mrs. Sara Reamer will be presiding hostess of the day. Already she has made elaborate plans for the hour which is to be devoted to the memory of St. Patrick. An address by Assemblyman Philip M. Walsh and another by Councilman Albert H. Elliott will conclude a month devoted largely to the consideration of clivic affairs.

HOME WEDDING.

One of the prettiest home weddings of the season took place in Alameda Friday evening, when Miss Rachel Reynolds became the wife of Arthur Meussdorfer, of San Francisco. The Rev. Dr. Rader of San Francisco performed the ceremony, under a bower of roses.

Mrs. Meussdorfer has been a resident of Alameda for the past year. She is a girl of rare accomplishments and has a host of friends. At the ceremony were: Miss Jessie Mackie, an Alameda girl, and Miss Pearl Swanton of Santa Cruz, who acted as bridesmaid; Miss Irene Meussdorfer was the maid of honor. The best man was Oscar Meussdorfer. After a brief honeymoon trip the young couple will reside in Berkeley.

AT HOME.

The engagement of Miss Maybelle Phillips of Berkeley and Monroe D. Green has just been announced. The bride-elect is the daughter of Mrs. Sara Phillips, of 2336 College avenue, Berkeley. Miss Phillips will receive the first and last Thursday of each month.

LECTURE RECITAL.

An evening with Beethoven. The lecture recital by Paul Martin, pianist, assisted by Miss Elsie H. Marwedel, contralto; Mrs. J. S. Riley, pianist, and F. H. Seely, violinist, will be given tomorrow evening at the Twenty-fourth-avenue M. E. church.

The program is announced as follows:

1. Andante from Sonata for piano and violin, op. 12 No. 2, Mrs. Riley and Mr. Seely.
2. Sonata, A flat major, op. 26. Andante con variazioni, Scherzo-Allegretto, Marcia Funebre-Andante maestoso, Rondo-Allegro, Mr. Martin.
- 3 (a). "In This Sepulchral Darkness," (b). "Ich Hebe dich," Miss Marwedel.
4. Sonata quasi una Fantasia (Moonlight), C sharp minor, op. 27 No. 2; Adagio sostenuto, Allegretto, Presto Agitato, Mr. Martin.
5. Allegro vivace from Sonata for piano and violin, Op. 30, No. 3, Mrs. Riley and Mr. Seely.

Given under the auspices of the Ladies' Aid for the benefit of the church.

AN ENGAGEMENT.

The engagement has been announced of Miss Margaret Franck and John E. Dibert. The interesting news was told Saturday afternoon at a tea

TOO MUCH ICE CREAM RESULTS IN DIVORCE

New York Writer Says Wife's Fondness for Refreshments Increased Her Weight.

NEW YORK, March 4.—Legal papers on file in the Supreme Court disclose that Raymond F. Ayres, an author and magazine writer, complained in a suit in South Dakota, in which he obtained a decree of absolute divorce from his wife, Elizabeth D. Ayres, that she is a glutton, was addicted to the excessive eating of ice cream and gained forty pounds in weight within eight months after their marriage. He says she now weighs 165 pounds, although only five feet two inches tall.

Ayres says that by reason of his wife's interference with his work he lost his editorial position. He charges that his wife's overeating resulted in her becoming obese.

The papers relating to the South Dakota divorce were submitted to Justice Dowling in Special Term Part

III of the Supreme Court in a suit which Mrs. Ayres brought against her husband to obtain an absolute divorce, asserting that he had been guilty of improper conduct with Minnie Maud Hanft, to whom, it is said, Ayres was married after he got his Dakota decree on April 26, 1934.

When the suit brought by Ayres was tried at Sioux Falls, S. D., before Judge Jones, a deposition made by Ayres' sister, Sue Fuller Ayres, was read. The deponent set forth that she once saw Mrs. Ayres stick a pin into her husband's leg and insist on sitting on his lap when he was recovering from an illness and was very weak.

After hearing Ayres' counsel and examining the record in the South Dakota divorce suit, Justice Dowling dismissed Elizabeth D. Ayres' suit.

MILLIONAIRE IS CRUEL TO HIS FIVE CHILDREN

A New Jersey Judge Finds Rich Man Guilty on Five Out of Six Counts Made.

CAPE MAY COURT HOUSE, N. J., March 4.—Judge Eldredth, in criminal court, sentenced T. Wistar Brown, the eccentric Ocean City millionaire, to pay a fine of \$100 and costs on each of five indictments for cruelty to his children, for which he was convicted recently, and suspended sentence on the sixth indictment, of the same nature.

Former Judge Wescott, of Camden, Mr. Brown's attorney, made a strong plea that the verdict be set aside and a new trial ordered, arguing that certain specific acts in relation to one child were used by the jury as a warrant for finding his client guilty of cruelty to all six children.

He also pleaded that sentence be passed on all six indictments in order that he might make his appeal for a writ of error in each case at the same next hearing of the case.

time, but Judge Eldredth refused to entertain either petition. Brown was released under \$1000 bail until next Wednesday, in order that an opportunity be accorded him to obtain a writ of error.

For the prosecution, Louis Starr, who brought the suit, asked the court to appoint a guardian for the children, suggesting Dr. Thomas S. K. Morton, of Philadelphia, a brother-in-law of the defendant.

This was strenuously opposed by Mr. Westcott, who objected to any of Brown's relatives being appointed, declaring that they were at the bottom of a conspiracy to get possession of the children and control of his personal estate as well.

Judge Eldredth agreed to postpone the selection of a guardian until the writ of error in each case at the same next hearing of the case.

MOTHER'S HARSH WORDS DRIVES GIRL TO SUICIDE

Marie Tinay, Accused of Being Idle and in Love, Drinks Fatal Draught of Carbolic Acid.

PHILADELPHIA, March 4.—Scolded by her mother for receiving the attentions of a forbidden suitor and for her unwillingness to go to work, Marie Tinay, aged eighteen, of 1241 Buttonwood street, drank an ounce of carbolic acid in her bedroom, and died in great agony before a physician could reach her.

The girl lived with her parents on the second floor of the Buttonwood street house, and has been unemployed for several weeks. Yesterday morning the mother left the house to go to her work at 1617 North Bailey street, but before she went she severely lectured her daughter on her continued idleness

and her defiant preferences for a young man in the neighborhood to whom she objected.

Despondent and alone, the girl slipped out and procured a vial of carbolic acid. Where or how she obtained this is not known, as before she swallowed the deadly stuff she carefully removed the label from the bottle. Her cries aroused the entire house and were heard by Mrs. Anna Matthews, an upstairs tenant, and by Louis Schmitt, the owner of the property, who has a surgical instrument store on the ground floor.

They immediately sent for aid, but when a physician reached the house the girl was dead.

WANTS \$25,000 FOR HER INJURED FEELINGS

NEW YORK, March 4.—William Allen Dunlap, said to be a son of the

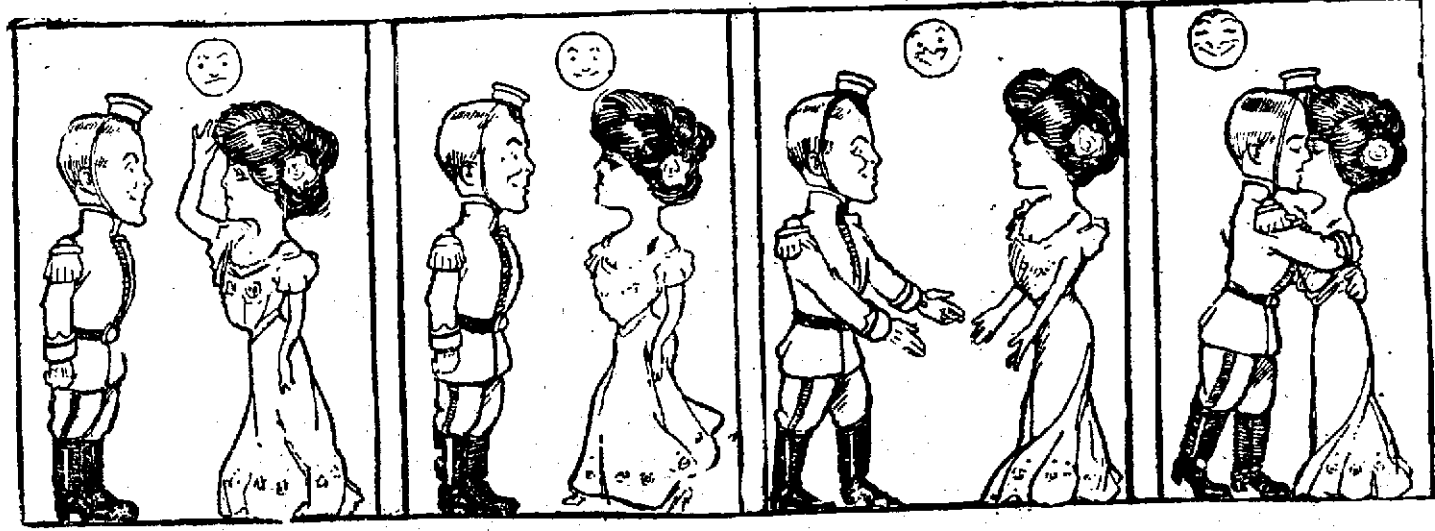

original Dunlap, the hatter, and known to men about town as "Willie" Dunlap, has been named as defendant in a suit for \$25,000 damages for alleged breach of promise of marriage.

Miss Florence S. Pitt, the plaintiff, lives with her parents in Westchester county. She is twenty-three years old, and a good-looking young woman of the brunette type. She is five feet eleven inches in height. Her acquaintance with young Dunlap began when she was sixteen years old.

In her complaint she sets forth that in September, 1926, Dunlap promised to marry her, and she, being unmarried, and in consideration of love and affection, promised to marry him. She is still willing to marry Dunlap.

Dunlap, in his answer, denies all of the plaintiff's charges, except that he admits that on September 16 he went with her to a hotel. As a special defense Dunlap declares that in January, 1929, Miss Pitt charged him with a serious offense; that about that time a sum of money was paid to her, and that she signed a general release, relinquishing all demands and claims upon him. This release, he says, contained a covenant that she would not sue him.

NEWS FROM BERKELEY AND CITY OF ALAMEDA

LIQUOR WAS CAUSE OF IT

Two Alameda Men Simply Imagined That They Had Been Held Up.

ALAMEDA, March 4.—What the police term vivid imaginations caused considerable trouble to the local department about one o'clock yesterday morning. Albert Berger and Charles Thompson reported they had been held up and beaten by footpads, after which their money was taken from them. The alleged hold-up was said to have occurred at Alameda Point, and in an effort to capture the robbers two officers were sent to the western end of the city.

Policeman Anderson found Berger and Thompson and began to question them. One of the men accused him of being the thief. A moment later one of the state policemen, guarding the cars on the sidewalk, came to view and the men then accused him of being the desperado. After much questioning Anderson finally decided that the men had believed a little too much fiction that worked on their imaginations until they really believed they had been the victims of a highwayman.

PASSES AWAY IN WINTER OF LIFE

ALAMEDA, March 4.—Mrs. Cymanche Collins died early yesterday morning at 344 Van Buren street. She was 72 years of age and came to this State fifty-five years ago. She is survived by two sons, who live in San Francisco. Mrs. Collins was a native of Maine. She had been a resident of this city only a short time.

PRINCESS SHOWS HER TEMPER.

LONDON, Feb. 28.—Princess Christian, who is the hardest worked member of the royal family in the cause of charity, has a very quick temper and does not hesitate to show it when things go wrong.

Her royal highness was persuaded to preside at the opening of a small school in the West End. As usual the principal, who was supposed to receive her, was not there and that none of the invited guests had arrived.

She walked straight to the throne-like chair left for her, sat down for a few minutes and when the agitated principal finally arrived arose in a majestic way, told her gentleman in waiting to order her carriage and went down the stairs just as all the guests came trooping up.

The principal tore down after her, but all the satisfaction he got was a very cold bow and a polite good morning.

In such a case as this Princess Louise, Duchess of Argyll, who is a true Bohemian, would have made a joke of the matter and would have probably sent for a cup of tea while she was waiting.

YOUNG MEN WEAR BIBS AT A SORORITY PARTY

STUDENTS ARE ENTERTAINED

Delta Delta Delta Girls Act As Hosts at "Children's" Event.

BERKELEY, March 4.—About twenty men students were entertained at the Delta Delta Delta house Saturday night by sorority girls dressed in children's frocks and singing songs of childhood.

"A children's party" was the designation of the novel affair, and the male guests were forced by their hosts to attire themselves in infantile collars and bibs.

Among the members of the Delta Delta Delta sorority who presided were the Misses Isabel McReynolds, Jessie Bowers, Alice Porterfield, Joanna Pruitt, Edith Martin and Marian Allen.

BROKE A WINDOW; WARRANT IS OUT

BERKELEY, March 4.—Merely to satisfy a personal spite, it is said Joe Trotman, a waiter at the Heide Cafe, broke a window in the restaurant this morning. Thomas Heide, the proprietor, has made complaint to the police and he will swear out a warrant for the arrest of Trotman, charging him with malicious mischief.

NO WOMAN IN SENIOR HALL

Such Is Word That Comes Out From Editor of College Paper.

BERKELEY, March 4.—Indignantly the editor of the college paper rejects a suggestion that both the men and women of the senior class be invited to attend a banquet in Senior hall at the close of the spring semester.

"That's the one place on the campus," says the student editor, in speaking of the hall, "where men alone can gather and talk over the events of the year."

He says that if women are to be permitted to attend affairs given in Senior hall, it will no longer be a man's place.

"If we start wrong now," continues the editorial, "before we know it there will be full dances and spring dances, summer spreads and winter feasts for women, and Senior hall will have lost its significance and will have become but a poor imitation of the lower floor of Hearst hall."

Senior hall is spoken of as "the only place on the campus where the co-eds' footsteps may not be heard."

WHAT THE EDITOR SAYS.

The editorial in defense of the traditions of the hall follows in full: "When Senior hall was dedicated it was announced that no woman should ever cross its threshold. At the last senior student assembly it was proposed to hold a banquet there at the end of the term for the men and women of the class. At that moment it looked as though we might forget the purpose of Senior hall before the end of one year, but that was a mistake."

It is in favor of class banquets attended by both the men and women of the class, but are not in favor of such banquets being held in Senior hall. That is to be the place on the campus where men alone can gather and talk over the events of the year. It is the one place where future senior classes are now looking forward to holding their gatherings.

Informal meetings that have grown out of the old-time senior singings and have done so much to bring the fellows together this year.

GOOD FELLOWS.

"It has brought them in touch with those good fellows of the faculty who are willing to come around and come out of their shells now and then. But if Senior hall is to be a scene of social affairs it will lose the dignity for which it was established. It will no longer be a man's place."

If we start wrong now, before we know it there will be full dances and spring dances, summer spreads and winter feasts for women and Senior hall will have lost its significance and will have become but a poor imitation of the lower floor of Hearst hall.

A class banquet for men and women would be a good thing for the senior class to hold, and we would suggest that it be informal and held in Hearst hall, or some other place primarily arranged for such an affair.

At the end of the year the seniors of the campus where the co-eds' footsteps may not be heard.

THE BROADWAY OF RIO JANEIRO

Return for a moment to the Ovidor; in all the world there is no street like this. The whole street, a mile long and twenty feet wide, is devoted entirely to pedestrians; no automobile's fearsome honk ever clears the way. Here are the newspaper offices; bulletins at their doors announce world happenings that have taken place since the morning edition appeared. Photographs of every event of the previous day lie another example of the department stores, a brass band playing with the Casa Colombo (House of Columbus) calls attention to the fact that shirts that have been selling for 20,000 reis can be bought for 18,000 reis (it takes thirty-three reis to equal a cent of American money). Another department store is called the Tower of Eiffel, because it is seven stories high.

Further along one comes to the jewelry shops. Here are exposed the riches of "Ye Brazils" diamonds white, diamonds blue, tourmalines, aquamarines, beryls and amethysts. And next door, would you believe it? The "Fakering Diamond" company's "pawshops fooled," "experts bewildered."

"Why buy diamonds when people think you are wearing sparkling trimmings, revolvers, shotguns, and this in Brazil! You can buy most anything but a sled or a pair of skates on the Ovidor—Metropolitan Magazine.

Comprehensive Scheme for Improvement Outlined by a Marine Engineer.

BERKELEY, March 4.—A comprehensive scheme for the improvement of Berkeley's water front, in accordance with a plan designed by A. Boschke, a marine engineer of national repute, was considered at a special meeting yesterday morning by the Town Trustees.

Boschke explained the means necessary to be used to procure the harbor improvement and the plan was adopted at the end of the session was given a vote of thanks by the Trustees.

MASS MEETING.

It was decided to hold a mass meeting of citizens in the Chamber of Commerce rooms next Thursday night, when a plan of action will be decided upon.

WATER FRONT PLAN IS MADE

Comprehensive Scheme for Improvement Outlined by a Marine Engineer.

BERKELEY, March 4.—A comprehensive scheme for the improvement of Berkeley's water front, in accordance with a plan designed by A. Boschke, a marine engineer of national repute, was considered at a special meeting yesterday morning by the Town Trustees.

Boschke explained the means necessary to be used to procure the harbor improvement and the plan was adopted at the end of the session was given a vote of thanks by the Trustees.

MASS MEETING.

It was decided to hold a mass meeting of citizens in the Chamber of Commerce rooms next Thursday night, when a plan of action will be decided upon.

Engineer Boschke plans the construction of a score or more of piers, 300 feet wide, the building of warehouses on each pier, leaving a space between the warehouses that are on either side for at least five railroad tracks, also a track between the warehouses and the ship alongside pier, with overhead traveling cranes to take the freight directly from the ship's tackle to warehouse, then to be shipped away on made up trains. Boschke said in part:

"This improvement in handling freight will reduce the cost to a minimum. The slips between the wharves are to be 400 feet wide, excavated to the depth required by dredging, the dredged material to be used in the construction of the wharf, making it the most economical construction of a permanent pier and the filling of the adjacent low water flats required for approaches to the wharves by the railroad."

GREAT IMPORTANCE.

The new-made water front property is of paramount importance to commerce, without condemnation of any kind, private holdings. This plan recommends itself, for it utilizes every foot of ground and every available space where ship and rail can meet. These wharves are to be built only as required by commerce. Berkeley has voted a bond issue to construct a pier, as per this plan, at the foot of University avenue. On the south side of the Southern Pacific mole an extensive filling should be made to permit the construction of a pier for passenger traffic, utilizing their ferry facilities. South of this filled land a drydock basin is imperative for the repairing of incoming and outgoing fleets.

The soil of the upper end of the basin is so favorable to building drydocks and marine railways that it seems it was made for that purpose. The space between the drydock basin and the north training wall cannot be used to better advantage to promote commerce than by this plan, i. e., by the construction of a series of wharves and slips parallel with the north training wall for the Western Pacific Railroad. The plan makes no provision of the estuary because the individual owners thereof have designs to meet the uses of business; however, the deepening of the estuary and the dredging of the shore property to connect with the excavated Government channel can be reduced in cost by using the dredged material for refilling the adjacent marshes, thereby increasing the value of the property.

To accommodate the expansion of the grain trade, slips and wharves with warehouses can be constructed upon these marshes, on the Alameda shore; also the acres of these marshes can be utilized as railroad terminals after being filled and provided with wharfage.

Engineer Boschke was chief engineer of the harbor from 1889 to 1896 and planned all the wharves and improvements which helped to make that port great. He was the chief engineer of the Boston and New England harbors, and after their completion was made assistant engineer to the Board of United States Engineers appointed to examine San Antonio Creek, in 1872, and report regarding its feasibility as a harbor.

ALAMEDA CADETS BEAT HIGH SCHOOL

ALAMEDA, March 4.—The First Corps Cadets defeated the local high school team in the opening game of basketball of the season, by a score of 5 to 2. The game was played Saturday at the Clement avenue grounds. The high school team was a good game in the field but were weak in hitting and lost the game through their inability to shoot the ball into the net. Next Saturday the local high school will play the San Jose high school nine.

ABRAHAM LINCOLN AND BILLY BROWN

"There was lots of people settin' around in a little room, waitin' fer him," said Billy Brown, in telling of his first visit to the White House, "but there wasn't anybody there I knowed, and I was feelin' a little funny when the door opened and out came little John Nicolay."

"How'd you do, John; where's Mr. Lincoln?" Well, John didn't seem over much to see me.

"Have you an appointment with Mr. Lincoln?" he says.

"Nope, Mr. Lincoln, I ain't got no appointment. Mebbe it's all right for them as wants postoffice or appointments, but I reckon Mr. Lincoln's old friends don't need 'em, so you jest stroll on down this way, so I jest went up and said:

"Well, he kind of flushed up and set his lips together, but he knowed me, and he went off. I waited two minutes, but the door popped open and out came Mr. Lincoln, his face all lit up. He saw and just stood my hands fit to kill. I said: 'Well, you ought to see his face as he looked at me.'"

"Billy Brown, he says, slow like, 'You mean to tell me you came all the way from Springfield, Ill., just to have a visit with me, that you don't want a job for anybody, nor a pardon for anybody, that you ain't got no complaint in your pockets, or any advice up your sleeve?'"

"Well, sir, I says, 'that's about it, I'm dumfounded. I couldn't go to Europe to see you, if I couldn't do it no other way, Mr. Lincoln.'"

"In my life, he just grabbed my hand and shook it nearly off, and the tears came down his face. 'Jes, Mr. Lincoln, I have used every remedy for sick headache I could hear of for the past fifty years, but Carter's Little Liver Pills did me more good than all the rest.'"

WHERE WOMEN VOTE.

"Ladies," said the male speaker at the suffrage convention, "there is a way out of all your troubles. There is an easy method by which the foot of every man may be lifted from you."

"There was a murmur of applause and then breathless interest."

"Just move to Colorado," continued the speaker.

"Then he remembered that the West had agents out to drum up population."

A POOR JUMPER

Little Dixon, aged 3, had just heard that famous nursery rhyme, "Hi diddle, diddle," and electrified his mother one night by explaining, as he stood waiting in wonder at the new moon which had just risen:

"Ooo-o-o-o, mamma, just look! 'What is it, dear?' said she.

"Why," he answered, in amazement, "that old cow has gone and kicked a piece right out of it."—Harper's Weekly.

CHRONIC ULCERS

EXTERNAL EVIDENCE OF INTERNAL POISON

Whenever a sore or ulcer refuses to heal, it is a sure sign of a diseased condition of the blood. The sore itself is simply an outside evidence of some internal poison, and the only way to cure it is to remove the deep underlying cause. Sores and Ulcers originate usually from a retention in the system of bodily waste matters and impurities. These should pass off through the natural avenues of waste, but because of a sluggish condition of the different members they are retained in the system to be taken up by the blood. This vital fluid soon becomes unhealthy or diseased, and the skin gives way in some weak place and a Sore or Ulcer is formed. The constant drainage of impurities through a sore causes it to fester, grow red and inflamed and eat deeper into the surrounding flesh, and often there is severe pain and some discharge. S. S. S. is the remedy for Sores and Ulcers.

It is nature's blood purifier, made entirely of vegetable matter, known to be specifics for all blood diseases and disorders. S. S. S. goes down to the very bottom of the trouble, and removes the poison and impure matter, so that the sore is no longer fed with impurities, but is nourished and cleansed with a stream of healthy, rich blood. Then the place begins to heal, new flesh is formed, the inflammation subsides, and when S. S. S. has thoroughly cleansed the circulation the place heals permanently. Special book on Sores and Ulcers and any medical advice desired will be sent free to all who write.

BAND CONCERT LISTENED TO WITH GREAT PLEASURE

GREEK THEATER WELL FILLED

Event Is Held Under the Leadership of J. Grant de Remer.

BERKELEY, March 4.—Quite a large crowd as ever attended a symphony concert in the Greek Theater gathered yesterday from Berkeley and the cities around the bay to listen to the "half-hour of music" rendered by the University Cadet Band under the leadership of J. Grant de Remer.

Threatening weather alone kept the big concrete amphitheater from overflowing.

Symphony concerts are undoubtedly higher art, but it was made evident yesterday that a brass band rouses a higher enthusiasm on the part of the multitude and tickles to a higher degree the musical ear of the average individual. Every number of the program of yesterday was encoored, and the rendition of the music of the "Stein Song" taken from "The Prince of Enthusiasm," brought forth some rapid-fire handclapping.

The soloists were: D. R. Crane, '07, and G. B. Swift, '09. The program was as follows:

March, "Flying Arrows" (Holzman);

selection, "Songs of the Fatherland" (potpourri of German folk songs); E. Andover; duet for cornets, "Soft and Low"; E. K. Short, Mr. Crane and Mr. Swift; selections from "The Prince of Pilsen"; Luder.

CHARTER GIVEN TO FRATERNITY

Tau Beta Phi Is Organized at the University of California.

BERKELEY, March 4.—A charter has been granted a number of students in the University for Tau Beta Phi, an honor society which aims to secure, among students in the technical and scientific work, the same class of members which is secured by Phi Beta Kappa in classical work.

The California chapter, which will be installed in April, has been secured through the efforts of Professor C. L. Corp, dean of the college of Mechanics, and Associate Professor C. Denhart, Jr., of the college of Civil Engineering, both of whom are members. Other members who are reading about the bay also used their influence.

The society was established in 1885 at Lehigh University, and now has chapters in a large number of the more important engineering institutions of the country.

On the election of members and other affairs of the Manual of American College Fraternities, says in part: "The members are elected as follows: The first term of the chapter, and the second term of the chapter, and the third term of the chapter, and the fourth term of the chapter, and the fifth term of the chapter, and the sixth term of the chapter, and the seventh term of the chapter, and the \$11,000

Lot 50x100 feet. Only 75 feet east of Webster Street; in the downtown business section.

The above price figures but \$220 a foot—in the same locality land is bringing all the way from \$250 to \$300 a foot—and in some instances, a much higher price.

**\$16,000**

On Adeline street corner Tenth street. Two-story residence of 15 rooms and bath, gas, electricity—fine big corner, 63 by 120 feet

Ideal location for a sanitarium or high-class boarding house.

Low rent now—still it brings \$150 a month

\$12,000

On 25th Street. 4 flat building, 5 room apartments close in, near Grove and 22nd; handy to Key Route Station. Leased until Sept. 1st for \$105 a month. At expiration of lease, rents can be increased easily.

Lot 50 x 100 feet.

Don't keep your savings "stowed" away! Let us loan them for you at 8%.

\$6,500

On 33rd Street, between Telegraph and Grove Street. Splendid two story residence of 8 rooms; bath. Gas, electricity; practically new, only two years old. Lot 40 x 100 feet.

The price is a trifle over \$160 a foot, with the improvements thrown in. Very desirable location—a few minutes ride to the downtown business center.

\$4,200

On 55th Street. 1 block to either Shattuck or Telegraph Avenues. New and modern 2 story residence of 6 rooms and bath; gas and electricity.

This building was put up by day labor contract—would cost at least 30% more to duplicate now. Lot 25 x 110 feet.

\$44,000

On Eleventh street, 1 1/2 blocks from Broadway; inside fire limits; fire ordinance now requires building of brick structures in this section of the city.

New three-story frame building, store and basement and 25 rooms.

The same building built of brick would cost from one-third to one-half more, and would not bring in any more income than it does now.

Rents for \$360 a month—when lease expires can be increased very easily.

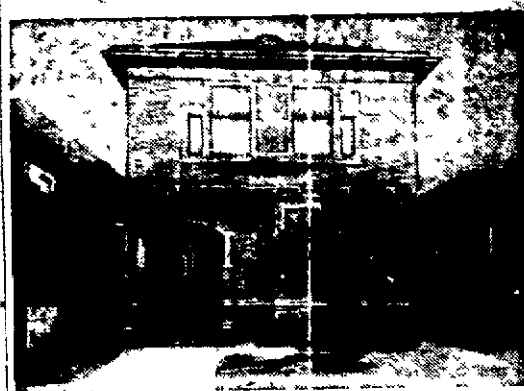

\$17,500

Pays Almost 16 per Cent.

On Seventh Street between Adeline and Union Sts., two-story building and cottage, two stores rent for \$70 a month, rooms above leased for 3 years for \$115 a month; cottage in the rear rents for \$32.50 a month.

Monthly rentals amount to \$217.50. Lot 50 x 127 feet.

\$10,000 mortgage at 6 per cent can remain.

**\$5,600**

On Filbert street between 18th and 21st streets. 2-flat building of 5 rooms each; upper flat rents for \$35 a month; owner lives in the lower flat. Lot 30x120 feet.

The price figures less than \$19 a foot with the buildings thrown in

Picture of property shown above.

Buy a piece of property from us and let us sell it again—at a profit to you.

\$55,000

This property is on Franklin Street between 9th and 10th Streets; 50 foot frontage; improved with a 3-story brick and frame building (basement, 1 store, elevator, 32 rooms). Rooms rent for \$125 a month. Store can be rented for \$250 a month, or can be divided and made to bring in \$300 a month.

LENTEN TALK AT ST. MARY'S

Rev Father Grant Explains Attitudes of Catholic Church.

Indifferentism is the belief that it makes no difference what church one goes to because they are all churches are substantially the same and all ministers equally well qualified to administer to the religious needs of men. said the Rev. Father Grant in a Lenten sermon at St. Mary's Catholic Church yesterday.

Among non-Catholics the opinion is expressed frequently. We hear it on all sides. What difference does it make where we go. All churches are alike. All temples point to heaven and they all lead up to their conviction.

CHANGE RELIGION
While many are attached to a denomination out of conscientious conviction, many change from one religion to another without scruple and without the least suspicion that in so doing they may be denying any of the teachings of Christ or that they are repudiating the only witness on the subject worthy of belief.

Popular Catholic opinion sustains them for it tells them broadmindedness and twentieth century latitudinarianism are the outcome of enlightenment and the growth of freedom in America. To in Europe the various governments modeled in the logical manner adopted an interpretation of the Bible that seemed to them correct and made it the belief of the state church.

People as a matter of course fell in line. But when emigration set in, men found in America on comparing notes, that their state church at home was only one of a hundred others also founded on the Bible and that either lost faith in all of them came to the conclusion that all were equally good.

LOGICAL OUTCOME
Their conclusion is the logical outcome of their concept of what a religion or church is. For many a man a church represents some interpretation of the Bible that has recommended itself to a body of people who along with their belief have accepted a certain form of worship.

WELL TO STUDY PHASE
It is well for Catholics to study this phase of religious thought, because it is the opinion of many of our friends and therefore a menace. When the hearts are attuned in friendship there

is a disposition on the part of heads to be attuned in opinion. Too strength not intelligence will win the stronger character will win the weaker.

Indifferentism is a menace too because it comes in a cloak of science with a diadem of intellectualism on its brow and an escort of men in its train who are influential in various walks of life and powerful in social and civic circles. And the natural inference is that a religious body which is not thus broad in mind and tolerant in the dark ages and of the time of the inquisition.

Catholics must therefore know the theology of indifferentism well and learn also to distinguish between the friendship they have for their friends and the esteem they have for their friends. Indifferentism is a friend a heating in it but because recommended by men whom we respect and love.

BASED ON AUTHORITY
Prigion is based on the authority and power of Christ in the world and invested by him in Peter and his successors. Peter is the ambassador. The British government will not treat of American affairs with any American in London who happens to know the instructions given by this government and who talks and acts and dresses like him who is the ambassador. It will not consider him as an ambassador, because what makes him ambassador is not knowledge of the message given nor dress nor ceremonies nor names. It is the authority and power to act given by the home government.

So now does the Catholic believe that the church is the ambassador of God with power to sanctify the soul and that therefore there cannot be such a thing as indifference.

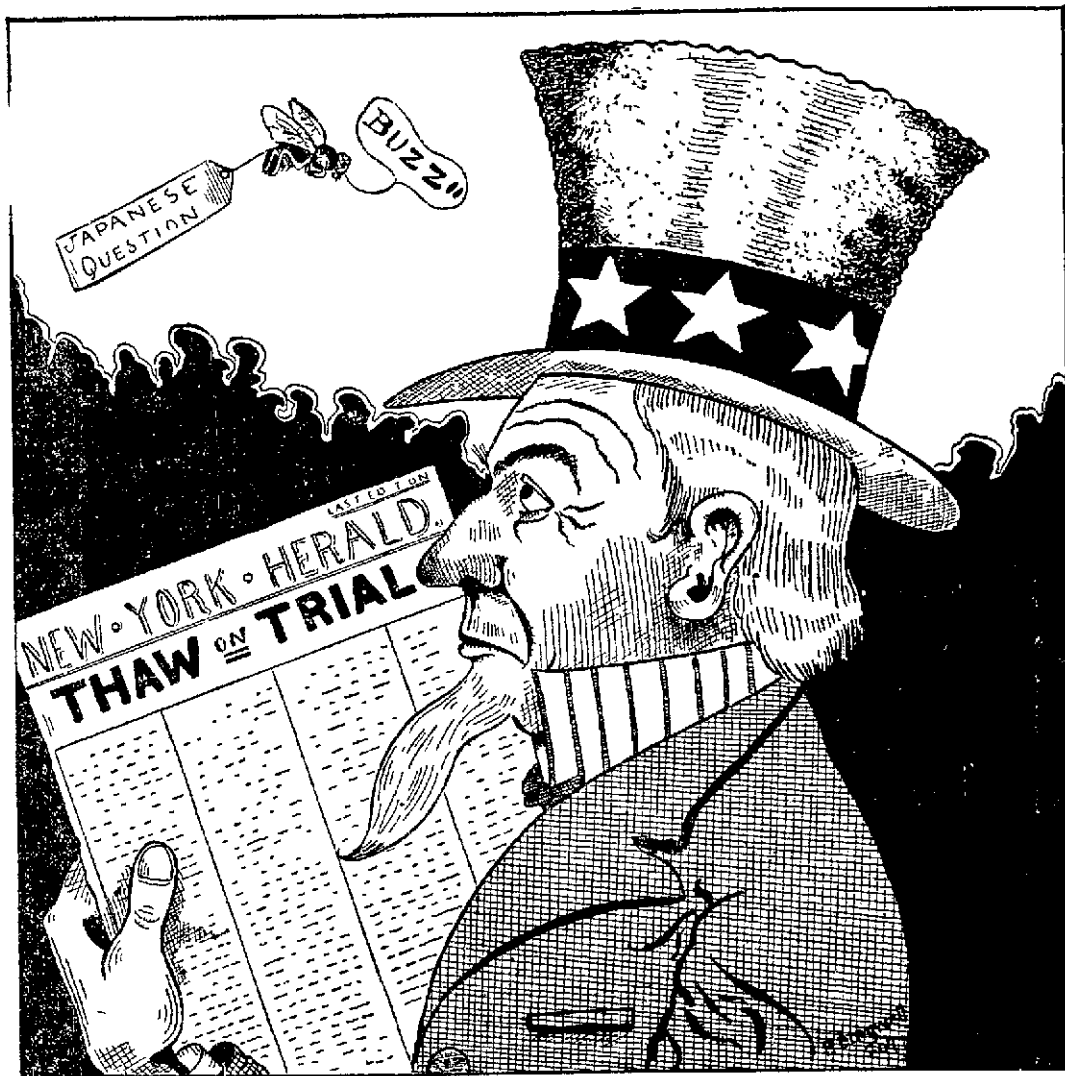

CLARKE TONIGHT
While it is true that the actor who has such perfect schooling in his art as Creston Clarke has had should be able to play almost any part well—and therefore it is not so remarkable after all that our four most actors can shift from one to another and back again and in a moment for every impersonation that they give—yet it is also true, as a very often the experienced actor strikes a part that is exactly suited to him. Such a part is that of John Mortor, the clerkman who Creston Clarke portrays. This season in the new modern emotional drama "The Ragged Messenger." A prominent critic but it "It is difficult to call whether this great play was created especially for Mr. Clarke or he for it to perfectly suited are they to each other."

"The Ragged Messenger" will be the attraction at the Macdonough theater tonight tomorrow night and Wednesday night.

Rising From the Grave
A prominent manufacturer when A. F. Farnell of Iucina, N. C. relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at Osgood Bros. Druggists Seventh and Broadway, and Taylor's and Washington streets. Price only 50c.

Schilling's Best is the standard by which other tea and coffee are judged. Have no equal as prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles. Carter's Little Liver Pills. Try them.

CONGO AUTHORITIES ASK FOR MOHUN

BRUSSELS, March 4.—At a meeting of the American Congo company March 15 the Congo authorities will propose that R. D. Mohun, ex-consular agent at Boma, Congo Free State, be appointed African manager of the company. It is expected that the representatives of the company in the United States will agree to Mr. Mohun's appointment.

RESCUE SAILORS OF STEAMER HELENE

DOVER, England, March 4.—Eight members of the German steamer Helene, trading between North Sea ports

and Spain, which was sunk after a collision yesterday with the German steamer Marsala, from Hamburg to the Mediterranean, succeeded in reaching shore in one of their own boats. After the collision the Helene was run ashore near Dover, but she got off and afterwards foundered with the loss, it was reported, of the eight men of her crew, whose safety had been announced.

IN AUDIENCE WITH AUSTRIA'S EMPEROR

VIENNA, March 4.—Emperor Francis Joseph at noon today received Professor de Martens, Russian imperial chancellor of state, in special audience and discussed the proposed program for the coming peace conference at the Hague.

PRISON INSPECTOR IS ASSASSINATED

UFA, Russia, March 4.—Prison Inspector Kolbe was shot and killed this morning by three revolutionists in front of his residence. One of the assassins was captured. He said that the inspector had been sentenced to death by the social revolutionists owing to his cruelty to political prisoners.

Sweetenham is longer but it makes a swell synonym for "pinhead." Don't draw and quarter Sweetenham—just halve him and spell it with an 'a.' Charlotte Perkins Stetson Gilman is telling what the world would be like if women had her way. If a woman had her way "Sam Hill." John D. Rockefeller sat with two negroes in church Sunday. Aw, now, this shows a venal spirit! Just because some of 'em offended at Brownsville is no reason for rubbing it into the whole race.

COMPANY IS STRONG ONE

Lambardi Troupe of Singers Better Now Than It Ever Was.

The Lambardi Opera Company is one of the strongest organizations that has ever been in America. Those who remember the Lambardi Opera Company will remember the great success they sang with in this city seven years ago in the Opera House. After their great success the same artists were engaged by Manager Leahy of the Tivoli Opera House to sing the three successful seasons. The present organization is stronger than the first one. The troupe started from Milan two years ago and has sung in all the leading cities of South America, Argentina, Republic of Chile, Guatemala, Peru, Ecuador, Mexico and now they come to Oakland after having finished a successful season in Los Angeles and San Francisco.

THOSE IN COMPANY
The company is composed of five tenors, four sopranos, three baritone, two basses, two second tenors and two second baritones, two mezzo sopranos, thirty people in the chorus, thirty in the orchestra and two leaders.

Among the tenors they have California's favorite tenor, Martinuzzi, dramatic tenor Philip D. Ottari and the lyric tenor Attilio Salinaschi. Among the baritones is the three octave baritone Angelo Antola, Signor Paccini and Signor Scifone. The sopranos are Vela George, Aulina Trombin and Franceschini. The mezzo sopranos are Matilde Camporeale and Mary Millon, the basses are Olinio Lombardi, Guido Camporeale and Luigi Bergami and the two great leaders, Fulgenzio Guerrieri and Lebagott.

All these artists will appear at the seven performances of grand opera at the Macdonough theater beginning Thursday night.

Half a hundred guests were bidden, and in the receiving party were Miss Alice Laws, Miss Louise Franck, Miss Vera Cope, Miss Helen Dornin, Miss Ray Morris, Mrs. David Hartley, Mrs. Frederick Gowing, Miss Margaret Franck and Miss Anna Franck.

The groom-to-be is a son of Mr. and Mrs. A. C. Dibert of this city. He is a graduate of the University of California and a member of the Delta Tau Delta fraternity.

BRESLIN LONG

The marriage of Miss Anna Breslin and Albert V. Long took place Saturday evening at the home of the bride's parents, Mr. and Mrs. Owen Breslin.

on Madison street. The Rev. Thomas McSweeney, pastor of St. Francis de Sales church, officiated. The bride was attended by her sister, Mrs. H. P. Travers, as matron of honor, while George W. Austin with whose real estate firm Long is connected, acted as best man for the groom. About twenty-five guests witnessed the ceremony.

A great wedding ring was superseded by a band of white tulle from the chandelier in the parlor and beneath this the vows were taken. The color scheme was green and gold which was worked out with daffodils and am lilies. The dining-room in which supper was served after the wedding was decorated in red.

Friends of the couple sent a variety of presents of silver, cut glass and china. Maitlin Egan, the war correspondent and Associated Press writer, an uncle of Mrs. Long, was reported among the givers by a pair of silver candlesticks.

Mr. and Mrs. Long departed upon a tour through the southern part of the State and upon their return will be at home at 1015 Adeline street.

INFORMAL TEA

Mrs. George W. Pierce and Miss Gray entertained recently at tea given at the Hotel Metropole for Mrs. John Lockwood Ramsey formerly Mrs. Evelyn Gilmore. The hours were from 3 to 4 and among those who received the guests were Mrs. Pierce, Miss Gray, Mrs. Miles Fisher, Mrs. Frederick C. Turner, Mrs. Armstrong, Mrs. Benjamin F. A BERKELEY BUNGALOW

Good Buy

Here is a good buy for one who desires a fine little home, convenient to the Key Route and street car. It is less than a block from each. This bungalow is completely modern, with tiled ceilings, sand finished walls, stained Oregon pine in the dining room and a handsome tile floor grate, lighted by both gas and electricity. Lot 40x135. Fine lawn, storage shed in rear. Just a first-class home spot, a block from Lorin station; worth much more than we ask—\$4750.

VERNON HEIGHTS COTTAGE

\$4500

This would be a good buy anywhere, but in this exclusive neighborhood it is especially valuable. It is a house somewhat on the Queen Anne style, with six good sized rooms; four on the first floor and two on the second. The ceilings are coved, walls tiled, flooring in every room downstairs. There are two bedrooms, first-class bath, six-foot basement, with cement work complete. Lot 20x30. Lawn and flowers. Everything modern, including gas and electricity, open plumbing. Terms if desired. Total price \$4500.

NEW STEP IN LIQUOR CASES

Attorney Representing Berkeleyites Proposes to Appeal Actions.

A new step will probably be taken in the Berkeley liquor cases that Judge Harris passed formal convictions on this morning, for Attorney Burton A. Hayne, who is representing August Huilde and Walter Sweetman, said that he would take the case to the Court of Appeals and move for a writ of corpus, for he claims that the judgment is void, in which case a \$500 fine for each defendant is paid in excess of the Berkeley ordinance.

Deputy District Attorney Redmond C. Staats fought the case before Judge Harris in the Superior Court and won a \$100 fine for each defendant. The decision rendered by Harris has not been pronounced on the defendants personally, for they will be taken into custody before Justice of the Peace Edgar, of the college town.

ordinary means of treatment would do him no good. He assured him that his method of treating his case would cure him. He placed his case in his hands. Today he is well as he ever was in his life.

Mr Stevens' case is paralleled by hun-

of dollars in the attempt to be freed from the thrall of disease. But the efforts of the specialists proved unavailing and Mr. Stevens got no relief. Meanwhile his business and domestic affairs became entangled and he sought the advice of SHERMAN. Every word HE told him that his business and domestic relations had come true. HE told him that his ailment was curable; but that the
